sl	City	Project / question	Dataset and period	Required output	Student name	student roll no
1	Mumbai	Map 2020 mean tropospheric NO_2. Estimate the number/share of residents aged 65+ living in the city's highest-NO_2 quartile.	S5P NO_2 + WorldPop age–sex; 2020	Monthly 2020 NO_2 GIF/time slider + annual NO_2 map + 65+ exposure map/table + interpretation	Aditi saha	HS25M101
2	Kolkata	Map 2020 mean tropospheric NO_2. Estimate exposure of women aged 15–49 to the highest-NO_2 quartile.	S5P NO_2 + WorldPop age–sex; 2020	Monthly 2020 NO_2 GIF/time slider + exposure map/table for women 15–49 + interpretation	Vidya Anand	HS25M114
3	Chennai	Map 2020 mean CO column. Estimate the number/share of residents aged 65+ in the city's highest-CO quartile.	S5P CO + WorldPop age–sex; 2020	Monthly 2020 CO GIF/time slider + 65+ exposure map/table + interpretation	Punith J	CE23B025
4	Hyderabad	Map the 2020 absorbing aerosol index. Estimate exposure of children aged 0–14 to the city's highest aerosol-index quartile.	S5P AER_AI + WorldPop age–sex; 2020	Monthly 2020 aerosol GIF/time slider + child-exposure map/table + interpretation	Mohammad Rameez	CE25M407
5	Ahmedabad	Map 2020 mean tropospheric NO_2 and compare male versus female population residing in the city's highest-NO_2 quartile.	S5P NO_2 + WorldPop age–sex; 2020	Monthly 2020 NO_2 GIF/time slider + male/female exposure comparison + interpretation		
6	Pune	Quantify and map the expansion of total built-up surface.	GHSL Built-up Surface; 1990–2020	5-year built-up time slider/GIF + 1990–2020 change map + total/percentage increase	Atul Tripathi	CS25M251
7	Surat	Quantify how total built-up surface changed over two decades and identify major growth zones.	GHSL Built-up Surface; 2000–2020	5-year time slider/GIF + change map + area/percentage increase	Rinsha Narayanan	HS25M110
8	Jaipur	Map the spatial expansion of built-up surface relative to the 2005 footprint.	GHSL Built-up Surface; 2005–2020	2005–2020 epoch slider/GIF + expansion map + summary statistics	Raushan Vivek	CS25M115
9	Lucknow	Compare changes in total built-up surface and predominant non-residential built-up surface.	GHSL Built-up Surface; 2000–2020	Time slider/GIF + total vs non-residential change maps/graph + discussion	Yadvendra Singh Yadav	CE25M414
10	Nagpur	Analyse the spatial and total change in building volume.	GHSL Building Volume; 2000–2020	5-year building-volume GIF/time slider + change map + city totals	D Thilak	CE25M404
11	Indore	Compare total and non-residential building-volume change.	GHSL Building Volume; 1990–2020	5-year slider/GIF + total/non-residential comparison + interpretation	Manish Chouhan	CE25M108
12	Bhopal	Examine how the Degree of Urbanisation classes changed over time.	GHSL SMOD; 2000–2020	5-year classification time slider/GIF + transition/area summary + interpretation	Lohitha Hamu Banothu	HS25M106
13	Patna	Examine how residential population distribution and total population changed.	GHSL Population; 2000–2020	5-year population GIF/time slider + change map + population totals + discussion	LOKHITHA B	HS25M107
14	Vadodara	Compare the rate of built-up surface growth with population growth.	GHSL Built-up Surface + GHSL Population; 2000–2020	Two time-series summaries + maps + dynamic built-up or population visualization + interpretation	K Tirumulesu	CE25M405
15	Kanpur	Create annual mean night-time-radiance surfaces and analyse the long-term trend.	VIIRS Night-time Lights; 2014–2024	Annual radiance GIF/time slider + city mean-radiance graph + change map + discussion	Vikas Kumar	CS25M120
16	Ludhiana	Create annual mean night-time-radiance surfaces and analyse the long-term trend.	VIIRS Night-time Lights; 2014–2024	Annual radiance GIF/time slider + city mean-radiance graph + change map + discussion	Shubhranshu	HS25M103
17	Agra	Create annual mean night-time-radiance surfaces and analyse the long-term trend.	VIIRS Night-time Lights; 2014–2024	Annual radiance GIF/time slider + city mean-radiance graph + change map + discussion		
18	Nashik	Estimate total population and population residing in the highest quartile of night-time radiance in 2020.	VIIRS Night-time Lights + WorldPop; 2020	Monthly 2020 light GIF/time slider + exposure map + total/exposed population and share + discussion		
19	Rajkot	Estimate total population and population residing in the highest quartile of night-time radiance in 2020.	VIIRS Night-time Lights + WorldPop; 2020	Monthly 2020 light GIF/time slider + exposure map + total/exposed population and share + discussion		
20	Varanasi	Create annual mean night-time-radiance surfaces and analyse the long-term trend.	VIIRS Night-time Lights; 2014–2024	Annual radiance GIF/time slider + city mean-radiance graph + change map + discussion	Ayushi Gill	HS25M102
21	Faridabad	Calculate NDBI and examine how the built-up spectral signal changed. Use the same Jan–Mar seasonal window each year.	Sentinel-2 SR; 2018–2025	Annual Jan–Mar NDBI GIF/time slider + 2018–2025 difference map + city mean NDBI trend	A Mounika	CE25M401
22	Meerut	Calculate MNDWI and examine changes in the surface-water signal. Use the same Oct–Dec seasonal window each year.	Sentinel-2 SR; 2018–2025	Annual Oct–Dec MNDWI GIF/time slider + 2018–2025 difference map + interpretation	Umang Rastogi	HS25M113
23	Ranchi	Calculate NDMI and examine changes in the moisture signal. Use the same Mar–May seasonal window each year.	Sentinel-2 SR; 2018–2025	Annual Mar–May NDMI GIF/time slider + change map + annual mean trend	Aditi Saha	HS25M101
24	Coimbatore	Calculate BSI and examine changes in bare/exposed-surface signal. Use the same Jan–Mar seasonal window each year.	Sentinel-2 SR; 2018–2025	Annual Jan–Mar BSI GIF/time slider + 2018–2025 difference map + interpretation	keerthi	CS25M205
25	Kochi	Compare NDBI and MNDWI between two years to discuss built-up and surface-water signals. Use the same Jan–Mar window.	Sentinel-2 SR; 2018 vs 2025	Before–after swipe or GIF + NDBI and MNDWI change maps + numerical summaries	Nafeesath K A	HS26D001
26	Visakhapatnam	Quantify the annual area of permanent surface water and examine long-term change.	JRC Global Surface Water; 2001–2021	Annual water GIF/time slider + permanent-water area graph + change map	Praneetha	Hs25m104
27	Vijayawada	Quantify the annual area of seasonal surface water and examine long-term variability.	JRC Global Surface Water; 2001–2021	Annual GIF/time slider + seasonal-water area graph + interpretation	Anagha K N	CE25M402
28	Srinagar	Compare permanent and seasonal surface-water area through time.	JRC Global Surface Water; 1990–2021	Annual water GIF/time slider + two-class area graph + discussion	Sharayu Dahibhate	CE25M111
29	Guwahati	Identify areas transitioning among non-water, seasonal water and permanent water.	JRC Global Surface Water; 2000–2021	Annual time slider/GIF + transition map + class-area summary	Priyanshu Verma	CS25M113
30	Thiruvananthap	Compare change in built land and tree cover.	Dynamic World; 2018–2025	Annual time slider/GIF + built vs tree change maps/graph + discussion	Mrinalini Menon	HS25M108
31	Bhubaneswar	Compare change in built land and tree cover.	Dynamic World; 2018–2025	Annual time slider/GIF + built vs tree change maps/graph + discussion	SK Abu Sufyan	CE25M410
32	Raipur	Compare change in built land and tree cover.	Dynamic World; 2018–2025	Annual time slider/GIF + built vs tree change maps/graph + discussion	Rahul Dewangan	CS25M114
33	Mysuru	Compare change in built land and tree cover.	Dynamic World; 2018–2025	Annual time slider/GIF + built vs tree change maps/graph + discussion	KANCHI SINGHAL	HS25M105
